

About the Queensland Education and Care (QEC) Services Register

Under Section 214 of the Queensland Education and Care Services Act 2013 (the Act), the Department of Education and Training is required to maintain a register of QEC approved services. That is, education and care (child care) services which are approved to operate under the Act.

This dataset is an extract from the register as at 31 December 2024 and includes contact details for all QEC approved services.

A person may inspect the register, or obtain a copy of the register, on payment of the fee prescribed under the Queensland Education and Care Services Regulation 2013.

The vast majority of education and care services in Queensland are captured under the National Quality Framework (NQF). The register of approved services under the NQF is published on the Australian Children's Education and Care Quality Authority website

(<https://www.acecqa.gov.au/resources/national-registers>).
